Summary

Web developer with one year of experience in front-end development. I have contributed to several projects, ranging from e-commerce to admin dashboard systems, where I gained extensive knowledge of HTML5, CSS3, SASS, Bootstrap, Tailwind CSS, JavaScript, jQuery, TypeScript, React, and Redux on the client side and MongoDB, Express, and NodeJS on the server side.

Experience

Academic advisor — ASOIU Geological Exploration Department *(May 2021 – June 2022)*
• Monitor students' attendance and progress
• Assist students to become independent and collaborative learners
• Guidance of up to 100 undergraduate students

Frontend Developer Internship — Tech IT *(Oct 2023 – Nov 2023)*
• Created multiple responsive websites for mobile and desktop devices using HTML and CSS
• Increasing my ability to operate as a team by closely collaborating with twelve other students
• Working with REST API using Postman

Frontend Developer Mentor — Evocoding Training Center *(Oct 2023 – Dec 2023)*
I continued as a mentor at Evocoding Training Center after completing my studies with a high average. In my role as a mentor, I improved my ability to communicate with students and how to solve difficult problems for them. For me, teaching the new students was a positive experience.

Achievements & Certificates

International Development Program (IDP) *(Feb 2020)*
IELTS Score: 6.5/9

Certificate of Completion Front End Development *(June 2023 – Nov 2023)*
Evocoding Training Center

Languages: English Intermediate, Russian Pre Intermediate
Frontend Development Tools: Figma, Git, Github, HTML5, CSS3, SASS, Bootstrap, Tailwind CSS, Responsive web design, JavaScript, jQuery, TypeScript, React, Redux, NodeJS, Express, MongoBD, Mongoose, Postman, ability to work with RESTful web services.
