Summary

Web developer with more than one year of experience in Frontend Development. As a winner of Career Development Scholarship Program organized by Technest and Code Academy, I have successfully completed “Advanced Frontend Development” program with High Honour Diploma. During education, I have contributed to several projects, ranging from e-commerce to admin dashboard systems, where I gained extensive knowledge of Figma, GitHub, HTML5, CSS3, SASS, Bootstrap, Tailwind CSS, JavaScript, jQuery, TypeScript, React, and Redux on the client side and MongoDB, Mongoose, Express, Postman and NodeJS on the server side.

Experience

Frontend Developer Internship — GI Group *May 2024 – Present*

• Creating the user interface and user experience (UI/UX) for Customer Relationship Management (CRM) systems using HTML, CSS, JavaScript and React
• Participate in agile development processes, such as sprint planning and daily stand-ups
• Partner with designers, backend developers, and product managers to bring features from concept to implementation

Frontend Developer Mentor — Evocoding Training Center *Oct 2023 – Dec 2023*

I continued as a mentor at Evocoding Training Center after completing my studies with a high average. In my role as a mentor, I improved my ability to communicate with students and how to solve difficult problems for them. For me, teaching the new students was a positive experience.

Frontend Developer Internship — AZ Tech IT Solution *Oct 2023 – Nov 2023*

• Created multiple responsive websites for mobile and desktop devices using HTML and CSS, as well as third-party libraries of JavaScript such as Query, and React
• Increasing my ability to operate as a team by closely collaborating with twelve other students
• Working with REST API using Postman

Academic advisor — Azerbaijan State Oil and Industry *May 2021 – June 2022*

• Monitor students’ attendance and progress
• Assist students to become independent and collaborative learners
• Guidance of up to 100 undergraduate students
